Contact us for details regarding sponsorship

### **BACKGROUND**

This year we are holding the fifth Asian IBIS Summit (Japan) meeting. Several high technology companies operate in Tokyo and are affiliated with JEITA and IBIS.

Our objective is to reach out internationally to communicate with the local experts and to learn of regional concerns.

### **CONFERENCE LANGUAGE**

The conference language is English, but we will plan for technical translations in English and in Japanese. Presenters may deliver in Japanese, but the presentation slides should be in English.

### **IBIS SUMMIT**

This meeting will be conducted as a formal IBIS Summit Meeting. Presentations will be archived in an electronic format on our Summit site, and meeting minutes will be issued. However no formal decisions requiring votes will be planned.

## **CALL FOR PARTICIPANTS**

People involved in IBIS model development, EDA tool development and digital circuit design are invited to participate to the Summit meeting. If you plan to participate, please register with the information below:

**Name:**
