

IBIS Chair's Report & Roadmap Update

Michael Mirmak
Intel Corp.

PCB East 2004
IBIS Summit
October 4, 2004

Progress

- * IBIS 4.1 Parser Development underway!
 - Beta code to be completed shortly
 - BIRDs being generated as issues are uncovered
- * ICM 1.0 support appearing in tools
 - IIRDs being generated for inclusion in ICM 1.1
- * Planning Tokyo IBIS Summit with JEITA
 - First ever in Asia! Slated for Feb-March 2005
- * Membership holding at 21 organizations
 - 14 IBIS 4.x parser licensees; 5 in 2004
- * IBIS 3.2 to be reballoted for ANSI approval
- * Cookbook, Futures and Quality Committees hard at work
- * Web updates continue
 - Top-level pages and model library updated
 - ibis-information.org redirect available and working

Dangers Lurking

- * Membership below budgeted levels
 - *Need four (4) more to meet GEIA commitments*
- * 4.1 Parser may be put on hold!
 - Parser is on-track for completion by Dec. 2004
 - Funds only cover two of three payments!
 - *Still insufficient funds today to ensure completion of parser*
 - *Need at least two (2) more parser license sales*

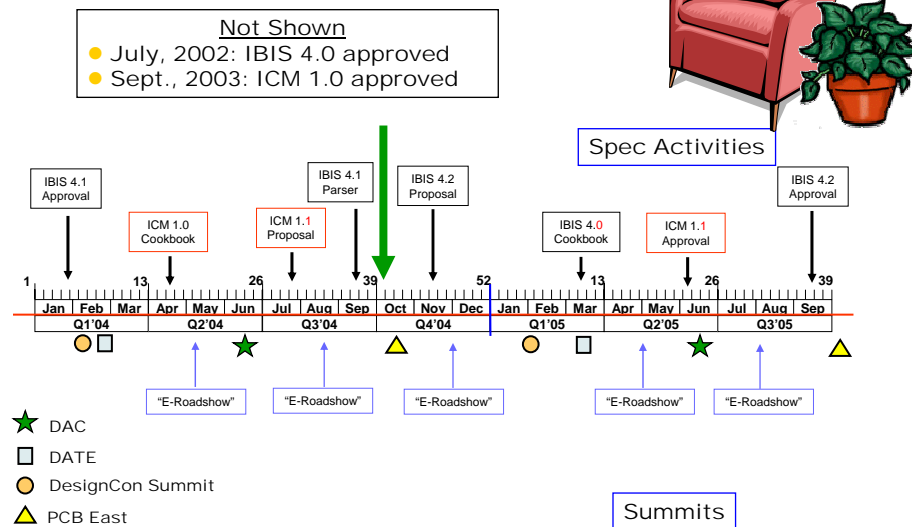

The IBIS Open Forum needs your ongoing support!
